Some jobs are more delicate than others, and we understand that research work calls for flexibility due to the uncertain nature of the job. We've got your back, so go ahead and plan for that evening specimen collection effort

OUR STANDARDS

Vehicles

We take our vehicles for regular servicing. We only visit the best mechanics to guarantee that you won't be hearing mechanical sounds minutes into your journey

Rest assured, you get a clean, fit, and organized vehicle. We also fill up on fuel before picking you up. And for your long journeys, we ask a mechanic to do a quick run-through just to be sure.

For that extra touch, we'll offer bottled water and the daily newspaper. Should you require WIFI, communicate that to us in advance and we'll make arrangements

Chauffeurs

Our chauffeurs are all experts in their trade. They report to work neat and trimmed. They are also educated in front-desk mannerisms and will conduct themselves in the most professional manner.

The ride is customer-focused. The chauffeur can engage in a comforting exchange where need be, but shall not be over-familiar with the client unless the client needs a friendly conversation to amplify the experience.

FLEXIBILITY

While we look forward to continuing to serve you during this time, we recognize some travel plans may change. To provide you with flexibility for these changes, we have extended our existing no-fee cancellation policy to include customers with pre-paid rentals booked directly through us. Customers who have booked a rental through a third-party are encouraged to contact that party directly to understand their policy
